

HHCC Provider Connections and Training Calendar

Spring 2022

Greetings,

This Spring HHCC will continue our **online training calendar**. HHCC will be providing a variety of educational professional development workshops online that fit the needs and convenience of any educator looking to meet the needs of diverse learners. HHCC is excited to display several brand-new topics!! As well as to welcome back all the wonderful presenters that help improve the skills of childhood educators every year.

Just a reminder that center-based educators working in full year programs need a minimum of twenty (20) hours per year of professional development, with 1/3 of those hours focused on meeting the needs of diverse learners. Family child care providers need a minimum of ten (10) hours per year of professional development, with 1/3 of those hours focused on meeting the needs of diverse learners. Educators can use two-hour workshops as well as CEU courses and college courses to meet these requirements. As always HHCC encourages educators to reach out if there is a particular topic not covered on this calendar that interest you so we can plan for future workshops.

While we continue to wait for the new changes in the professional development system to be implemented, educators can continue to take trainings at HHCC.

EEC Core Competencies

When reviewing your workshop choices, please use the key below to see which core competency the trainings align. Core competencies reflect the core body of knowledge and observable skills and attitudes that educators working with young children need to facilitate child learning and development. All educators need to take 1/3 their required trainings in working with diverse learners (including special needs).

If the workshop covers Special Needs/Diverse Learner topics, look for the symbol (SN/DL) next to the title.

1. Understanding the growth and development of children and youth
2. Guiding and interacting with children and youth
3. Partnering with families and communities
4. Health, safety and nutrition
5. Learning environments and implementing curriculum
6. Observation, assessment and documentation
7. Program planning and development
8. Professionalism and leadership
